# Help Wanted!

## Work in your favorite quilt shop!

See if working at Pennington Quilt Works is right for you. Consider the following opportunities, then check below to apply.

- 1. Substitute Sales.** Our business always requires some extra help during special events, and to cover when regular salespeople need to take off. Most of these times are planned in advance. This position requires that you are trained to help customers to our standards, and you must be able to be active on your feet for 7 hours per shift. You must also have good sewing skills and be willing to work some weekends. Working as a substitute often leads to permanent work with regular hours. I anticipate several openings.
- 2. Sample Makers.** If you piece accurately and bind neatly, we might like you to make kit samples for us at home. If you are on our sample maker list, we will forward a picture of a needed sample and ask if it is a sample you would like to make and if you are able to make it in our time frame. If yes, then we will give you everything you need to make it.
- 3. Bernina Sales Associate.** We love our Bernina machines, and our department continues to grow. Bernina has a machine for everyone, and we find it very satisfying to help each customer find the right one. With the specialized training from us and from Bernina you will be able to do that too! Build confidence as your knowledge deepens and your involvement grows. You may even get to attend Bernina University just for Bernina dealers! Full-time or part-time schedules are available. Both include some weekend hours and some heavy lifting.

**To apply: please reply by email, to me, Jan Crane, at [pqworks@aol.com](mailto:pqworks@aol.com). Include the following information:**

Name

Address

Position applying for

Recent work or life experience

**To help me get to know you, write me a note, answering the following questions briefly. There are no right or wrong answers.**

What is your general area of interest in sewing?

Have you ever worked in sales before? (for sales position)

Why do you want to work at PQW?

Why should I hire you?
